

**Sprint 2 Report**  
**MixIn**  
**Group 18**  
**March 1, 2017**  
**v2.0.0**

**Actions to stop doing:**

We have no actions that we should stop doing. We are satisfied with our progress and want to continue developing the tasks and user stories we have taken on. The user stories that we have been working on will help us in reaching our goal in completing this web application. Our consistent and efficient meeting times are keeping us on track to completing the project.

**Actions to start doing:**

The team should have more group work sessions since the first one that we had was very effective. We should be more accurate in estimating time for tasks.

**Actions to keep doing:**

We should keep meeting 2 - 3 times a week. Continue to keep updating the team on our progress on slack.

**Work Completed:**

- As a user I want to be able to access a music database to play and share music
- As a user I want to view a presentable and clean website to be able to navigate the site easily

**Work Not Completed:**

- As a user, I want to be able to connect my account to social media so I can share it with others
- As a user I want a chat interface so I can talk to other people in the room
- As a user, I want to be able to make a chat room with my friends
- As a user, I want to be able to collaboratively make a playlist with the other users in the chat room, so that we can all easily share music
- As a user, I want to be able to view other user's profile, so I can invite them into the chat room if I like their music
- As a developer I want to link my users to their friends and their own music rooms
- As a user I want a music messaging feature
- As a user, I want to be able to search music within the website so I can easily pick songs to play

**Work Completion Rate:**

Team Size: 6

User stories completed during sprint: 2

Estimated ideal work hours completed during sprint: 70 hours

Days during sprint: 15 days

### Burn Down Chart:

- Team: 6
- Sprint Duration: 15 days
- Hours per day: 4
- Total Hours: 60 hours
