Sprint 1 Report
MixIn
Group 18
February 13, 2017
v1.0.0

Actions to stop doing:

We have no actions that we should stop doing. We are satisfied with our progress and want to continue developing the tasks and user stories we have taken on. The user stories that we have been working on will help us in reaching our goal in completing this web application. Our consistent and efficient meeting times are keeping us on track to completing the project.

Actions to start doing:

The team should have more group work sessions since the first one that we had was very effective. Having our team all together to help each other and expand on ideas was very beneficial. Using the research we have done, we should start developing our method for music messaging.

Actions to keep doing:

The consistent scrum meetings are working well. We will continue to meet three times a week for our 15 minute scrum meetings.

Work Completed:
- As the developer, I want to link the web app to a server for online access
- As a user, I want to have an account so I can save preferences and friends
- As a developer I want to link my domain name to our server for easy access to the web app
- As a user I want to have a music room to share music with my friends
- As a developer, I want to research messaging systems so that I can implement them
- As a user, I need a homepage so I can have all my features centralized

Work Not Completed:
- As a user, I need a settings page to edit my account information
- As a user I want a contact page for MixIn application to contact the developers with any issues

Work Completion Rate:
Team Size: 6
User stories completed during sprint: 5
Estimated ideal work hours completed during sprint: 50 hours
Days during sprint: 21 days

Burn Down Chart:
- Team: 6

- Sprint Duration: 21 days
- Hours per day: 3
- Total Hours: 123 hours
