Actions to stop doing:

In the future we would stop using web2py and use a framework that is built to suit our needs. As a scrum team, we do not have any actions to stop doing.

Actions to start doing:

In the future we will meet for longer group sessions and implement bonus features.

Actions to keep doing:

We should keep meeting 2 - 3 times a week. Continue to keep updating the team on our progress on slack.

Work Completed:
- As a user I want to be able to access a music database to play and share music
- As a user I want to view a presentable and clean website to be able to navigate the site easily
- As a user I want a chat interface so I can talk to other people in the room
- As a user, I want to be able to make a chat room with my friends
- As a user, I want to be able to collaboratively make a playlist with the other users in the chat room, so that we can all easily share music
- As a developer I want to link my users to their friends and their own music rooms
- As a user I want a music messaging feature
- As a user, I want to be able to search music within the website so I can easily pick songs to play

Work Not Completed:
- As a user, I want to be able to connect my account to social media so I can share it with others
- As a user, I want to be able to view other user's profile, so I can invite them into the chat room if I like their music

Work Completion Rate:

Team Size: 6
User stories completed during sprint: 8
Estimated ideal work hours completed during sprint: 90 hours
Days during sprint: 15 days

Burn Down Chart:
- Team: 6

- Sprint Duration: 15 days
- Hours per day: 4
- Total Hours: 90 hours
